Auto Hits Pole, Cuts Power About 2 Hours

Most of the north end of Antioch was blacked out for about two hours at 5:45 p.m. Tuesday night.

An automobile driven by Lloyd Bellett, Antioch, went into a skid on a slippery spot on the street and hit a utility pole on the corner of Main and Second Sts. Wires and the pole were broken cutting power to the area until service was restored about 7:30 p.m. says Police Chief Walter I. Scott.

The accident was investigated by Scott.

School Board Studies Fire Deficiency Report

A special meeting of the Antioch Township High School board was called for Wednesday night to study a report from the state fire marshal which listed 33 points of deficiency at the school.

Board Chairman Robert Denman said that the report was written after a Dec. 31 inspection by the state fire inspector.

Some of the minor items cited are "long outstanding" and others may require some expenditures to correct, Denman said.

Has Income Tax Forms

The Antioch post office has income tax forms which may be obtained free says Roy Kufalk, postmaster.

Rev. Paul Shaub, Named Children's Home Director

A new executive director of the Central Baptist Children's Home in Lake Villa has been named by the board of the home.

He is The Rev. Mr. Paul R. Shaub of Westfield, N. J., who has taken residence on the grounds. His wife and children David, 16 and Janet, 13, will come here June 1, when school is completed in New Jersey.

THE NEW DIRECTOR is a native of Ohio and a graduate of Denison University and Colgate-Rochester Divinity School. He served a pastorate in Greenwich, N. Y., and five years later was called to be associate secretary of the Rhode Island Baptist State Convention.

His experience in this work included director of promotion. In nine years of service he was involved in young people's work and was executive director of Baptist Camps of Rhode Island, Inc. This work gives him a rich experience and background in administration and promotion and in the child care field.

SHAUB HAS been connected with Hillsdale College, Hillsdale, Minn., in development of resources.

For the past two years he has been working as an administrative assistant to the campaign director in New York in the CHEC program of the church.

The board of directors of the Children's Home is pleased to make the appointment and looks forward to a closer relationship with the Baptist Fellowship, the official announcement said. Shaub has a broad knowledge and acquaintanceship will add new vigor to the home's endeavor to serve children, constituents and the community.

Pressures will be great for more revenue in the 71st session of the Illinois General Assembly but delegates from this area give no indication from where the money is to come.

As he prepared to leave Monday morning for Springfield, William J. Murphy, Peoria, Ill., told the Antioch News that this will be one of the most hectic sessions in Illinois history.

ONE OF THE first orders of business will be selection of a speaker of the house and Murphy sees a battle between Mayor Daly's-backed Joseph DeLaCour and Paul Powell from Downstate. In the Democratic-controlled house, Murphy foresees the possibility of a Republican speaker in Rep. Warren Wood who has held the post for the past four terms.

Wood is popular and the unusual could occur if the battle between DeLaCour and Powell becomes too great.

A Republican speaker in a Democratic-controlled house has occurred once before, Murphy said, when in 1913 it took 75 roll calls to elect the speaker.

MURPHY TOLD the Antioch News that in the event Wood is elected, he would make a bid for the post of House Whip.

State Senator Robert McClary also left for Springfield Monday and forecast a series of interplay and rivalries in the House even more than in the overwhelmingly Republican Senate.

Ambitious members in both parties will be eyeing the governor's seat in this session, McClary says. "Not since Gov. Stevenson's legislative debacle at the hand of a Republican Senate and West-side bloc controlled House of 1949 has the challenge to the Governor's office been so great. Gov. Stratton's legislative recommendations will be attacked by the Democratic controlled House and may be questioned by ambitious Republicans in the Senate—all with their eyes on the 1960 elections."

15 Below Mark Ties Season's Low Temperature

It may have felt like it but the low temperature of last week-end only tied the low for the winter. It was 15 below zero Monday night to tie the Dec. 9 temperature.

However, figures supplied by Roy Kufalk, U. S. Cooperative Weather Observer, show that already there have been four below zero days in January compared to five in all of December.

Sewer, Water Systems Here Overtaxed, New Project Planned

Rate Hikes To Retire Bond Costs

Seek Financing For \$200,000 Without Raise In Taxes

By NOEL DUERDEN

Overtaxed sewer and water facilities here definitely will be relieved this year, says Antioch's village board.

Groundwork was laid at Tuesday night's board meeting for financing a project which will provide sewer and water needs for a population of 3,500. The board heard recommendations from the city engineer as to needs and from representatives of two bonding houses as to costs.

ONE OF THE first projects is securing right-of-way on planned expansion of the system and the first move in that direction was made at the meeting. The board prepared dedication papers for a new street extension of Anita Ave. from Depot St. to North Ave. All property owners along the planned new street willingly have deeded over land for a 60 foot street except two property owners at the North Ave. outlet.

But this won't stop the village as it will dedicate the street immediately and will take legal steps to continue Anita Ave. through the property owned by the balking citizens Mayor Murrill Cunningham said.

"THIS IS IMPORTANT to the entire town," Cunningham said, "and we do mean business on this project."

The new street under which will lie necessary additions to the sewer and water systems will be the second street connecting Rte. 173 and North Ave. Water mains under the entire length of Anita Ave. will supply the fast growing Oakwood Knolls section with at least 35 pounds pressure.

Cost of the new project will be no more than \$200,000 the board heard. The sewer additions will come to a maximum of \$125,000 and water main project will be about \$40,000.

THE MAYOR opined at the meeting that taxpayers would not support an election to furnish the money for the necessary expansion and so money must be raised through a revenue bond issue where users would pay for the bonds used for loans on experiences of other towns financing. He based his assumption where taxes had to be raised to finance civic improvements.

So water and sewer users would pay for the entire bond issue through increased costs for water and sewer service, the board heard. Trustee Ernest Glenn presented figures showing that a 50 per cent increase in the two rates would provide a margin above operating costs of \$16,000 yearly—enough to pay off bonds issued for the project. The Fox Lake Hills group was especially distressed at the multiplier factor applied by Jasper to original assessments supplied by Del Black, Lake Villa assessor.

In an accompanying letter, the association called the multiplier "excessive, arbitrary and unjust" and that it was "applied without due regard to the fair market value."

They claimed that unincorporated areas such as Fox Lake Hills "are assessed on the same or higher basis than those in municipalities."

THE BOARD directed E. C. Jacobs, village attorney, to write a letter to the company that it must make attempts to reduce the organic load on the system and improve its housekeeping. The adjustments must be made or service is in danger of being shut off at the plant.

The village engineer advised the board that Willow-Dale contributes fully a third of the load on the Antioch sewer system. In addition, milk wastes are unusually difficult to process, he said.

After immediate action is taken on the present problem, Willow-Dale Pres. Sam Lerner will be called upon to iron out future workings of the plant and the sewer system, the board said.

No Action Yet On Record 1,600 Tax Protests Filed

F. L. Hills Calls For Economy, Not More Revenue In Letter

No action has been taken by the County Board of Review on the estimated 1,600 tax protests filed in Lake Villa Township, but each case will get an individual hearing soon. A spokesman for Robert Jasper, county supervisor of assessors, said that each protestor is now being assigned numbers for the office filing procedures. The numbers in no way will determine order of the hearings, she said.

THE BOARD of Review still has not completed hearing the tax protests of Cuba and Elva Townships. But when it does, it will have to face the unprecedented pile of tax protests from Lake Villa. The number is larger than those submitted from any other township in the county, the spokesman said.

Earlier Jasper said that he felt that many of the tax protestors would find some relief.

The drive to organize taxpayers and provide help in filing forms resulted in the following number of protests:

Venetian Village and West Milmore, 743.
Lindenhurst, about 285.
Fox Lake Hills, more than 180.
Lake Villa, about 100.

Kenneth Hart, Lake Villa Banker Dies

Funeral services were held Saturday at the Allendale School Chapel in Lake Villa for E. Kenneth Hart, former president of the Lake Villa Trust and Savings Bank.

Mr. Hart, 56, died last Wednesday, Dec. 31, at the T. J. Tronson residence on Deep Lake Road, where he had resided for the past 21 years. His death came after a 15 month illness.

BORN IN CHICAGO Aug. 11, 1902, Mr. Hart first came to Lake Villa where he attended the Allendale School for Boys. He was graduated from the Western Military Academy at Alton, Ill., and received his first training in banking with the Drexel State Bank of Chicago and the Garard Truck Co. in Chicago.

He became affiliated with the Lake Villa Trust and Savings Bank on Dec. 5, 1933 and rose to the post of president in 1950. He gave up the post in 1958 because of illness and was immediately named executive vice president.

Mr. Hart was active in community and school affairs, having been treasurer of the Lake Villa Village Board and a past treasurer of the Lake Villa School Board. He also was a member of the Millburn Masonic Lodge No. 127, AF & AM at the time of his death.

A sister, Mrs. Fred D. Stone, Jr., Summit, N. J., is the sole survivor.

The Rev. Gerald Robinson of the Community Methodist Church of Lake Villa officiated at the funeral with Strang Funeral Home, Antioch, handling the arrangements.

New Officers For Lions Club To Be Installed

New officers for the Antioch Lions Club will be installed Monday night at a meeting at Smart's Country House, Rte. 173.

DEAR READER News Editorials**Taxi Rates May Be Unfair
But Fair Profit Is Not**

Some fire has been raised by some folks in Antioch over what they term "unjust" taxi fares. It is not without some justification for rates are pretty high for a taxi ride in this area.

It is true that there is only a slight regulation over taxi fares — 50 cents maximum within the village limits. Someone else can go into the taxi business here if he feels it is economically sound and if the village will give out another permit it is allowed.

It seems illogical to pay, as an example, \$4 for a trip to nearby Fox Lake, when that amount would pay for two roundtrips to Chicago. But a taxi company has to gain enough for the trip both ways for a fare as it can not return rides from Fox Lake since it is not licensed to operate there.

In the town limits, as a resident tells this week, nine kids from Main St. to St. Peter's School each at the maximum fare is just a little ridiculous we think.

There are two ways to alleviate the taxi problem here. One by going out of the taxi riding business, or two, by going into the taxi operating business yourself and then have to suffer through days of no fares, higher insurance than you can imagine, getting out of bed at anytime to take a single fare for 50 cents, or listening to people's complaints when they think they have been "robbed" of \$1 for a two mile ride.

**Junk Presents One Side
Of Issues To Newspapers**

Many and varied are the letters, pamphlets, flyers and garbage that find their way to the desk of newspaper editors. The purpose of course is to "help" harried editors in filling their columns with "news".

Favorite target is the weekly newspaper editor who probably has less time than his big city daily brother in culling the good from the bad.

Some of the releases would make even the mildest citizen's blood boil. An example of what you did not see in The Antioch News is the anti-semitic booklet which was sent asking the editor to read, then write a critical appraisal of the booklet which would be used for further publicity. The story presumably would be used also in the editor's newspaper. The unusual ruse is an attempt to get the always critical editor to read the poison.

The latest in this parade of trash is an appeal from the Association of Citizens' Councils giving a breakdown of white and negro populations in the various states showing how many more of the colored race would be needed in each northern state to reach the national average of 10 percent.

It contains a plea for northern states with "solutions" to the Negro problem to share the "problems" of the south. For a middle-of-the-roader on segregation like The Antioch News, it is a hard question to resolve.

The point of these examples is that on every subject, there is an opposite and logical view which must be considered. The solution usually is best found in a compromise and it is the responsibility of the editor to present both sides. If both views are not present, then it is the duty of the reader to make sure the editor sees his mistake. If you should by accident see an article in The Antioch News which seems to be one-sided, then you are doing fellow readers a disservice by keeping still and letting wrong impressions build up in their minds.

This is one of the "problems" of the south — folks have lived a one-sided life so long that even a compromise position is unacceptable.

Guest Editorial

By Neil Reidel
Village Clerk, Village of Lake Villa

As a village official I hear the complaints of the residents of the village as to why the board of trustees have done some of the things they have.

People as residents and property owners should have pride in their village as to how it looks, and to the advantages it has to offer that some other village does not have.

The village board has created and passed a zoning ordinance recently; they also have compiled and passed a new building ordinance. Some of the residents seem to think this is an ordinance just to control certain people, but it isn't! The same board of trustees that passed these ordinances must be governed by them just the same as any one else. They are residents of the village and have no special privileges.

These ordinances were passed to protect the people of our community from anyone who would come into the village and erect a building or start a business that would be a liability to all of us. We are looking for assets not liabilities.

With the growth of the village and the community around us, traffic laws have to be enforced more rigidly than heretofore; parking is a great problem in any village, city, or town. Ours is no different, yet some of the people seem to think they can do as they used to, do many years ago, then when they get a ticket they complain. But they probably did something they knew was wrong when they did it.

If you as an individual have likes or dislikes, attend a village board meeting; help the board of trustees to build a better village in which to live.

Let's all give the board of trustees a big hand for this thankless job.

**No Snow Plows
In Alleys Says
Lake Villa Board**

Folks in Lake Villa are hoping it doesn't snow any more this winter. If it does, they can look forward to armpit-or-higher drifts in all alleys in the town.

The village board Monday night

decided that it could not plow snow from alleys this winter.

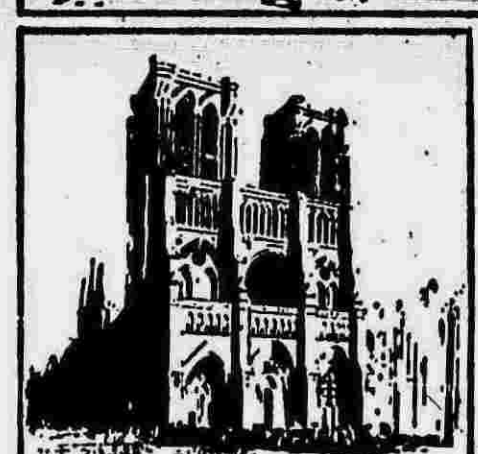

IT IS NOT THAT the board members are hard-hearted or feel a financial pinch. It's that by plowing snow, the town would run the danger of ripping up newer sewer manhole covers with scraper blades. In many cases the covers are so new that the alleys cannot be graded and leveled until spring when land above the new sewer lines has settled properly. Then alleys will be maintained properly, the board promised.

FANCY THAT! by WALDMAN

Earliest church steeples date back to 3500 BC when Sumerians erected "Ziggurats" — brick mountains — as homes for their gods.

The familiar steeple of the Notre Dame in Paris is an unsurpassed achievement of early Gothic architecture. Though its cornerstone was laid in 1163, it wasn't completed until 1230 — 67 years later.

Many church steeples are now made of stainless steel. Developed by 20th Century steel makers, this handsome metal combines the technical progress of today with the dignified beauty of the past.

**Feels She Gets 'Robbed'
With Local Taxi Service**

I was very happy when I read your article in the News about our taxi service. Isn't there a state law about this or a better business (bureau)?

I hope you keep this going in the paper and get more people to write in their experiences with our taxi service.

A friend of mine took the cab from Channel Lake School. It cost her \$1.75. On the way into town he picked up another party who paid him \$1.50. Then the third party he picked up gave him a dollar, so that was \$4.25 for about a four mile ride. She called the cab and he came earlier so he could pick up these

other people but he still charged her the full amount.

My daughter had a friend coming in on the train so she asked him if she could ride with him. He said, "Sure, I have to go anyway." But when he brought them home the charge was \$5.

Oh, I could go on one time he had nine children in the cab from Main St. to St. Peter's School, that was \$4.50. I don't mind paying for a service but I sure hate to get robbed. I hope you keep printing these.

Chain Stores, Automation Coming

Business will boom in the 60's, according to a year-end report from the Kiplinger organization on changes and growth during the next decade.

The business boom will flow from population growth, plus rising productivity which will increase the output per man-hour, plus higher incomes, plus the pull of people who want more and better things for themselves, plus the nimble shifting of business patterns, Kiplinger says.

COMPANIES WILL expand, despite painful and expensive growth. They must add capacity, products, diversity and new outlets as a hedge against the rapid changes that would drive them down and possibly out.

More chains, larger stores and many stores taking on additional lines is the revolutionary picture for merchandising in the 60's. The food store will become a general store, with other things than groceries. The end of the trend is not yet for the super-super-market. Pre-packaged and frozen foods, requiring more complex equipment, fancier fixtures will all bring on new kinds of warehousing needs.

ALSO THERE'S automation . . . this tide is rising fast. It means more mechanical equipment and system to replace muscle power. It's a must for domestic business, and it's a must for our foreign trade. Automation downgrades muscle, but it upgrades brains. Increasingly, college graduates will be lapped up and trained for top executive posts, technical and engineering jobs. And, surprisingly, the lower-echelon jobs such as foreman and supervisor will be filled by college grads.

As business gets to be in bigger units, it will need more trained brains. As it gets more far flung, more responsibility will rest on the individual. Business processes themselves are being upgraded and the men who run them. Automation adds to the need for the trained and the educated in key spots.

Wages and salaries are bound to rise, following the patterns now. Despite higher prices of everything—probably 20 per cent higher by the late 60's—most people will be able to afford more things.

THIS MEANS A continuation of inflation at about the same rate as in the past decade. Savings, pensions, etc., will shrink in terms of what they will buy.

Unions will be affected by the growth of white-collar workers, specialists or experts in various fields. Unions will find it harder to unionize effectively. Union leaders are already foreseeing the trend.

More women will join the ranks of workers in the 60's. They've got to work, for the growing economy requires that they do work.

Now 60 per cent of women working outside the home are married and run households. The proportion will rise, especially women in the 45-to-54 age group who have raised their children. Forty-five per cent of the women of middle age will be working by the late 60's.

Chicken Eating Contest At Lake County Poultry Day

The annual Lake County Poultry Day will be held Wednesday, Jan. 14, at the WKRS Radio Station studio according to Ray T. Nicholas, Lake County Farm Adviser.

This meeting which is one of the most popular of the Extension Service meetings, is open to all interested poultry and egg producers.

REGISTRATION FOR the meeting and attendance awards will start at 10 a. m. Those registering before 10:30 will be eligible for a major award. Late registrants will be eligible for a minor award. Prizes will be awarded by the Public Service Company of Northern Illinois.

A special feature of the day's program is the poultry lunch provided through the courtesy of the Henry Marlowe Hatchery of Huntley and WKRS Radio Station. This will be followed by the chicken eating contest to be staged between three salesmen of the Lake-Cook Farm Supply Company, the Grayslake Feed Sales, and the Henry Marlowe Hatchery and a customer of each of these companies.

Navy Rejects All Demolition Bids

Naval authorities have announced that bids which were received Dec. 11 for the demolition of the Camp Robert Smalls area of the Great Lakes Naval Training Center are being rejected.

The work, which includes demolition of 34 buildings and removal of all debris from the site will be included in the Capehart Housing Project Contract.

Bids for the 425 Unit Capehart Project of badly needed housing will be taken on Jan. 29. The new housing, to be built under the Capehart Housing Act, will be occupied as public quarters by officers and men on duty at Great Lakes.

India and the United States, the world's two largest democracies, have the world's largest film industries. India's sixty studios produce approximately 300 feature films a year with Indian attendance at the nation's 3,600 movie houses running at more than 600,000,000 people.

The Navy's new aircraft carrier USS Independence will carry more than 100 jet-powered planes which will be able to carry the latest weapons to targets far beyond the reach of earlier carrier based planes.

Predicts Great Population Hike, In 'Soaring 60's'

A 20 per cent increase in population and a soaring birth rate is predicted for the next decade by the Kiplinger organization in its annual report on population and business growth in the United States, released today.

The "Soaring Sixties" will bring another wave of economic expansion and further shifts in the habits and needs of the population of this country, Kiplinger says. In the late 60's population will reach 208 million, compared to the 1958 total of 175 million. And the birth rate will jump from an annual rate of four million babies to five million a year.

"Also more babies per family. Parents used to want two . . . now want three. The trends have been well established and there is nothing in sight to change them," the report said. "This means, among other things, a much greater market for children's goods, a demand for bigger houses with more bedrooms."

THE COMING HIGH TIDE of marriages is now only three years off. Children born in the 40's when the spectacular high birth rate began, will marry in the 60's, pushing the marriage rate a third above today's rate. Average marriage age probably will continue about as now, men at age 23, women at age 20.

The result of this high marriage rate will be a stepped-up demand for houses, furniture, home appliances, cars and all the other good things that are needed to equip new families.

According to the Kiplinger report, "By the late 60's, there will be 20 million oldsters, over 65. Now there are 15 million. Length of widowhood will be about what it is now, nine years."

"THE FUTURE will see 75 million youngsters under 18, now 60 million. That means even more gearing of our lives and living to the children. Teen-agers alone will make up a larger proportion of the total population than now.

With more oldsters and more youngsters, both in numbers and proportion, the people of working ages up to 65 will have their hands full producing enough goods to meet all needs.

"But," says Kiplinger, "it will be done by greater productivity with more older workers employed and less full retirement at ANY age. More women will work, many more than now."

Auto Show to Display Rocket, Missile Exhibit

A comprehensive, 20,000 square foot display of the latest rocket and missile developments will be one of the prominent special features at the \$20,000,000 51st annual Chicago Automobile Show in the International Amphitheatre January 17 through 25.

The automotive industry, which provides the cars and trucks that are the heart of the Show, figures in this area too by manufacturing component parts of many of the rockets and missiles that will be exhibited by representatives of the Army, Air Force, Navy and the Marine Corps.

About 10,500 meals a day will be served to the crew of 3,500, aboard the Navy's newest 60,000 ton giant aircraft carrier USS Independence.

Museum To Show Washington Fan

The beautiful 200-year-old fan which George Washington gave to Martha Washington on their wedding day, Jan. 6, 1759, is displayed at the Chicago Historical Society as the January "Feature of the Month."

To mark the 200th anniversary of the marriage of George and Martha Washington, the Society is exhibiting the fan along with a large, colorful French print showing Washington at his marriage to the widow Martha Custis surrounded by Virginia aristocracy and naval and military officers and leaders. It was made from the painting called "The Citizen" by Brutus Stearns (1810-1885), famous American historical painter. The special exhibit will be in the ground floor lobby, starting Jan. 2.

The fan, made of mother-of-pearl pierced staves inlaid with gold and hand painted grenadine, is one of the loveliest in the Society's collection. It bears the inscription "George to Martha, January 6, 1759" and was given to the Society several years ago by Mrs. John Haefner whose husband purchased it from the estate of the late Edith Rockefeller McCormick.

To Present Series Of Art Programs

A first annual North Shore Festival of Arts will be a series of five programs from April 28 to May 11, to be given in Winnetka and Wilmette, the North Shore Festival Association's board of directors announced today. The programs, each different in character, will include famous soloists, ballet, drama, chorus, orchestra and chamber music. Among the many outstanding artists to appear are Alberto Salvi, harpist, Theodore Lettvin, pianist, and Paul Olefsky, cellist.

Founded to promote and encourage the public performance of musical, literary, dramatic, educational and cultural programs, the Festival Association will present the first of the five programs at New Trier High School on April 28. It will feature the Illinois Ballet Company under the direction of Richard Ellis and Christine Du Boulay. Both are former soloists with the famous Sadlers Wells Ballet.

Only Once a Year!

Does this Jewel ad seem to "shout" more than any you've seen? It should—and here's why: this is the only week of the year when each Jewel store has a sale all its own!

Why Balance Stock?

Jewel shelves always bulge with thousands of different foods, sizes and labels. Some of these are discontinued during the year, replaced with another brand

or another size. When this change takes place, some of the discontinued merchandise is "left over." It's efficient business for Jewel to clear out store back rooms and the "corners" of our giant distribution center—even if it means drastically cutting the price.

An Old Fashioned Bargain Hunt!

Not all stores have the same merchandise left over, so each Jewel manager runs his own sale and the items he features cannot be advertised! So if you live close to more than one Jewel store, shop at each of them—you find pleasant surprises.

Oven-Fried Chicken a New Way to Prepare That Bird

Looking for a new way to prepare one of America's favorite foods? Sure, every cook wants the easy way as long as it still gets a "delicious" rating from the family.

Mrs. Helen Reimer, Rt. 1, Box 222, Lake Villa, submits a recipe which she calls Easy Oven-Fried Chicken for a new way to cook chicken. For sharing this cooking secret with other readers of The Antioch News, she'll receive her choice of a six-piece steak knife set or a three-piece carving set, courtesy of The Antioch News.

Here's Mrs. Reimer's favorite recipe for

EASY OVEN-FRIED CHICKEN

1 chicken, cut in serving pieces 1/2 to 3/4 pound melted butter
1 medium package potato chips

Dip pieces of chicken in melted butter. Roll buttered chicken in crushed potato chips. Place in greased casserole, covering with remaining potato chips and butter. Cover with foil and bake 1 to 1 1/2 hours at 400° F. Serve.

You can participate in this popular feature of the Antioch News and receive your choice of a three-piece carving set or a six-knife steak set just for sharing your favorite recipe.

Each week the News will publish one of the recipes sent in by readers. Winners can pick the set they want by stopping at the News office in downtown Antioch.

Evening Circle to Continue Christian Home Study

The evening circle of the Methodist Church will meet Thursday evening at 8 p. m. in the Wesley Hall with the Rev. Wallace Anderson continuing his discussions in the study of the Christian home.

Devotions will be led by Mrs. Leslie Sorensen. Mrs. Russell Homan, Mrs. Henry Palm and Mrs. Onno Haak will be hostesses.

RETIREMENT ANNOUNCED

The latest issue of the Soo-Liner, official publication of the Soo Line Railroad, lists the retirement of Mike Semler, Antioch, a section laborer with the road, after 10 years and two months service.

Antioch Couple Mixes With Wild Fowl

During a recent visit to the "Sun Coast" of Florida, Mr. and Mrs. William Radike, of R. R. 4, Antioch, stopped at Sarasota Jungle Gardens.

The visitors mingled with flamingos and other wildfowl roaming uncaged amid some of Florida's finest scenery. During their trip the visitors walked through jungle trails bordered by huge Royal Palms, saw hundreds of different tropical plants, and watched bees actually make honey.

The Antioch News and Antioch Theatre invite Elmer J. Stefany, Rt. 4, Box 303, Lake Villa, and one to attend Sunday, Monday, or Tuesday's show at the Antioch Theatre.

and money could possibly be received by the time sewer construction work is to begin, Warren said. He noted that Lake Villa got \$40,000 for construction of its sewer plant which went into operation last summer. Fox Lake is to receive about \$250,000 for its million-dollar system which bids are being accepted this week.

IF THE MONEY has to be raised from bond issues, revenue bonds will cost from 1/2 to 1 per cent more than general obligation bonds, Warren advised the board. However, taxes are not used to pay off revenue bonds.

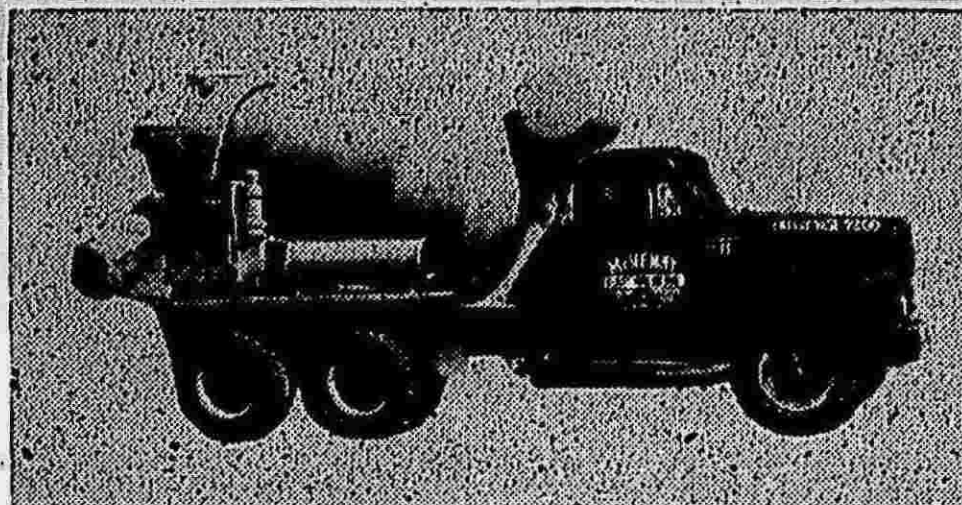

Harold Warren, a representative of a Chicago bonding house, noted that at present, village residents pay less for sewer and water service than many surrounding towns. The

50 per cent raise would be in line with increased costs, he said.

By this weekend the village board, meeting as a committee of the whole, will decide upon the bond rates of interests which would best serve the project, Cunningham said.

Lake Villa Gets Electric Commission, Accepts New Plat, Denies Fee Refund

A five man electrical commission was formed in Lake Villa at the regular monthly meeting of the village board Monday night.

Mayor Ervin Barnstable was appointed to head the body with Harold Hady as inspector and other members, including Willard Schneider, Clark Wetterberg and Lester Hamlin.

The commission is needed to comply with state law, the board of trustees was informed. Its duty will be to make electrical inspections and report findings to the village board.

ALL APPOINTMENTS are dependent upon acceptance by the individuals named at the meeting. However, board members felt that the selections were representative of qualified persons in the village and their present positions and lines of

turn to Stout College at Menomonee, Wis. Other students returning to college after the holiday vacation are: John Hamlin, for St. Bede's Academy, Peru, Ill.; Jay Cribb for Lakeland College, Sheboygan, Wis.; Lenore McCord for University of Illinois, and Joan Lindhorst for Beloit College, Beloit, Wis.

Mr. and Mrs. Victor Young of Fox Lake were visitors Sunday at the home of Mr. and Mrs. Clifford Gerber and Mrs. Tina Gerber.

Mrs. Fred Seefeldt had as her guests New Year's Day the Rev. and Mrs. DeVries and family of Gregory, S. Dak., Mr. and Mrs. Harvey Hall and daughter of Belvidere, Ill.

Dinner guests at the home of Mr. and Mrs. Frank Grenus New Year's were Mr. and Mrs. William Rasmussen and family of Zion.

Friday evening guests at the home of Mrs. Fred Seefeldt were Mr. and Mrs. Phillip Seefeldt and daughter of Genoa City, Wis., and Mr. and Mrs. Warren Seefeldt of Waukegan. They came to visit the DeVries family before they departed for their home in Gregory, S. Dak.

Mrs. Lela Barnstable spent a few days last week visiting her sister, Mrs. Marjorie Moody, of Waukegan.

trade meet with requirements of the state law.

The board also adopted a resolution making changes in license fees for electrical, plumbing and building permits as permitted by the Lake Villa ordinances. Attorney Bernard J. Juron, counsel for the village, said that periodic adjustments are made in the fee schedules and this is in keeping with municipal practice.

Some rates were revised upwards and some classifications were changed to fall more in line with current building plans.

IN OTHER ACTION, the board refused to refund a part of the money paid for a carnival and soft drink permit because it would set a precedent for future action. Once money is paid on any kind of a permit, no portion of the fee can be refunded under any circumstance the board resolved.

The request came from Richard Anderson, Lake Villa, who financed in part a carnival at Grand Ave. and Rte. 21-83 last summer. The show disbanded after three weeks, the board recalled, and Anderson asked for a pro-rated rebate of the \$200 permit fee which was good for a year. Anderson claimed that the exhibitor could not meet other financial obligations and was beset by various other troubles which caused him to leave Lake Villa.

Attorney Juron advised the board that it was not bound by law to deny any refund request and could

do so as a moral commitment if it wished.

Board members agreed that if an exception was made in this case, it would be bound to make such refunds in future instances.

THE BOARD ALSO passed an ordinance accepting the McKinley Court Subdivision being planned by Delbert Sherwood. The resolution is for the plot only and the streets are not part of the pact, it noted. The developer will have to grade and surface them.

However, the village will install sewer and water mains and include outlets to the lot line of property in the development. In return the village will purchase two lots in the area for a municipal well.

VILLAGE CLERK Neil Reidel was directed to prepare a letter to Robert Lehman, an heir to one of the founders of Lake Villa to inquire of the agreement between the Soo Line Railroad and his father. The

board was told that the agreement required the railroad to include Lake Villa on the list of stops for every passenger train passing through for 99 years. The supposed agreement was thought to have been signed about 1901. In return for the railroad's agreement, the necessary land was deeded to the line.

Atty. Juron advised the board that he doubted any such contract was of any legal value since it would undermine the purpose of the Interstate Commerce Commission and similar state bodies. The commerce commission automatically revises all private contracts, Juron said.

However, the board still would like to know if such a contract ever existed. It expressed disappointment that the Soo Line would continue passenger service to Antioch as the only stop in Illinois outside of the Chicago area.

The board also refused to allow contractor Ken Blumenschein to dump refuse into the Lake Villa sewer system. The contractor deals in septic tanks and cleaning and repair. The board felt that his type of waste would tax the system and would cause unnecessary undesirable odors where entry was made into the system.

DIFFERENT ON THE outside but all the same serve-yourself features on the inside that Antioch shoppers enjoy will be shown in this supermarket being constructed by Jewel Tea Co. for the big International Trade Fair at Barcelona, Spain. Jewel Tea will assume building, designing and managing the market as chief U.S. exhibit at the fair.

Supermarket, Much Like Local Store, To Be Built For Spain Fair

Jewel Tea Co will build and maintain a supermarket much like its modern store in Antioch for the big International Trade Fair in Barcelona, Spain, next June. The store is to be typical of the U. S. progress in food merchandising.

The store will be designed by Ludwig Blumberg, architect for Jewel Tea and will be managed by James A. Wilson, 37, a district manager for Jewel.

IT IS EXPECTED that a million fairgoers will see the store and be impressed with shopping procedures which American housewives take for granted. The Barcelona exhibit is the third trade fair display of an American supermarket abroad. Much success was achieved at the

previous shows in 1956 and 1957 in Rome and Zagreb, Yugoslavia, says George L. Clements, president of Jewel and chairman of the committee to assemble the market.

Stock of the store will include about 4,000 items representing all lines from canned and packaged groceries to pre-packed frozen meats, poultry and fish.

At the conclusion of the fair, some of the merchandise will be contributed to Spanish charities through the U. S. Embassy. Equipment and fixtures will be for sale and it is expected that soon American-style supermarkets will spring up in Spain after the display just as they did in Italy and Yugoslavia after previous trade fairs.

Farm Record Books Offered

Farmers are reminded that the Illinois Farm Record Books may be obtained at the office of Farm Adviser Ray T. Nicholas, in Grayslake. This record book, which was developed by specialists at the University of Illinois, is the best and most popular farm account book used in Illinois.

The book is made up of two parts. Part one is an income and expense book for the current year. Part two is a depreciation schedule and is good for five years. The books are made up in such a way that when completed at the end of the year the figures can easily be transferred to the income tax schedules. Instructions for using the books are printed in them.

Antarctica Station Now Has Female To Lift Morale

Feminine charms now grace Antarctica in the person of pretty, pint-size Miss North Kingston.

The first "lady" to land on the desolate, frozen continent is vacationing at the McMurdo Sound Air Facility.

The petite blond was assisted aboard a Navy P2V aircraft by the crew members, in Quonset Point, R. I., home base for the Navy's Air Development Squadron -6.

MISS KINGSTON was escorted to the seat in the transparent bulb of the plane's nose section and started the 12,070-mile re-supply flight to the Antarctic. Dressed in a firehouse red bathing suit, the "first lady of the Antarctic" drew attention whenever the plane landed—Alameda, Calif.; Honolulu, Hawaii; Canton Island; Nandi on Fiji Island; and Christchurch, New Zealand.

The new member of the wintering over party at McMurdo is not likely to flutter the hearts of the lonely Navy men and scientists at the bottom of the world, however, as she is a department store mannequin.

Members of the squadron who wintered over "on the ice" repeatedly had expressed the desire to take a mannequin to the South Pole, but had no idea of how to go about getting one.

KNOWING THE VALUE of good morale among men on isolated duty, Mrs. Harold Bracken, wife of a Navy aviation machinist mate attached to the squadron, adopted it as her pet project.

Remembering the power of the press, she enlisted the aid of her local newspaper, the North Kingston (R. I.) Standard, and two days later, the mannequin was donated by a local merchant. Dressed in Mrs. Bracken's bathing suit, and installed in the unused bow of the P2V, she was on her way to joining the wintering over party at McMurdo Sound.

"The trouble with money is it talks too much and buys too little," —Imogene Fey.

New Bottled Milk-to-Chicago Pay-Pact Signed

Good news for dairy farmers in this area who supply milk for the Chicago market is contained in an announcement by A. L. McWilliams, general manager, Pure Milk Ass'n, that a new "super pool" for continuing payment of producer premiums on Class I (bottled) milk up to Jan. 1, 1960 has been agreed upon by Chicago milk dealers.

The agreement was reached following several days of negotiations by Pure Milk Ass'n, which represents most of the dairy farmers who sell milk on the Chicago market, and the Associated Milk Dealers, Inc., which represents the major dairy companies on the market. It picks up where the 1958 agreement leaves off, McWilliams said.

AS IN 1958, the agreement provides for payment of an additional 25 cents per hundredweight on Class I milk each month for the period Jan. 1 through Dec. 31, provided that the Federal Order 41 Class I price, plus the negotiated premium, does not exceed \$4 per hundredweight.

It is estimated that this super pool premium will add 10 cents per hundredweight to the blended price paid producers over the 12-month period and bring them an increased return totaling approximately 5 1/4 million dollars.

A new feature of the agreement provides that not more than two cents per hundredweight shall be deducted from the super pool and used for advertising and promotion of milk and dairy products in the Chicago area, as directed by Pure Milk Association. It is estimated that up to a half million dollars could be raised through the deductions from the pool for this promotional work.

Farmers' Income Tax Guide Available at Farm Adviser's Office

A supply of the 1959 edition of the Farmers' Tax Guide has been received by Farm Adviser Ray T. Nicholas, at his office in Grayslake. Anyone interested may have a copy by phoning, writing, or calling at the office.

This sixty-three page guide gives sample schedules filled out, and a discussion of the method of completing these schedules. This guide will answer most questions which a farmer will have in filing his income tax forms.

Some K-Veteran Benefits Running Out

Time is running out for Korean veterans who might be eligible for a program of rehabilitation if they received or incurred a service-connected disability and presently are rated 10 per cent or more.

According to PL 894, all schooling or training had to be completed within nine years or by a certain date, namely:

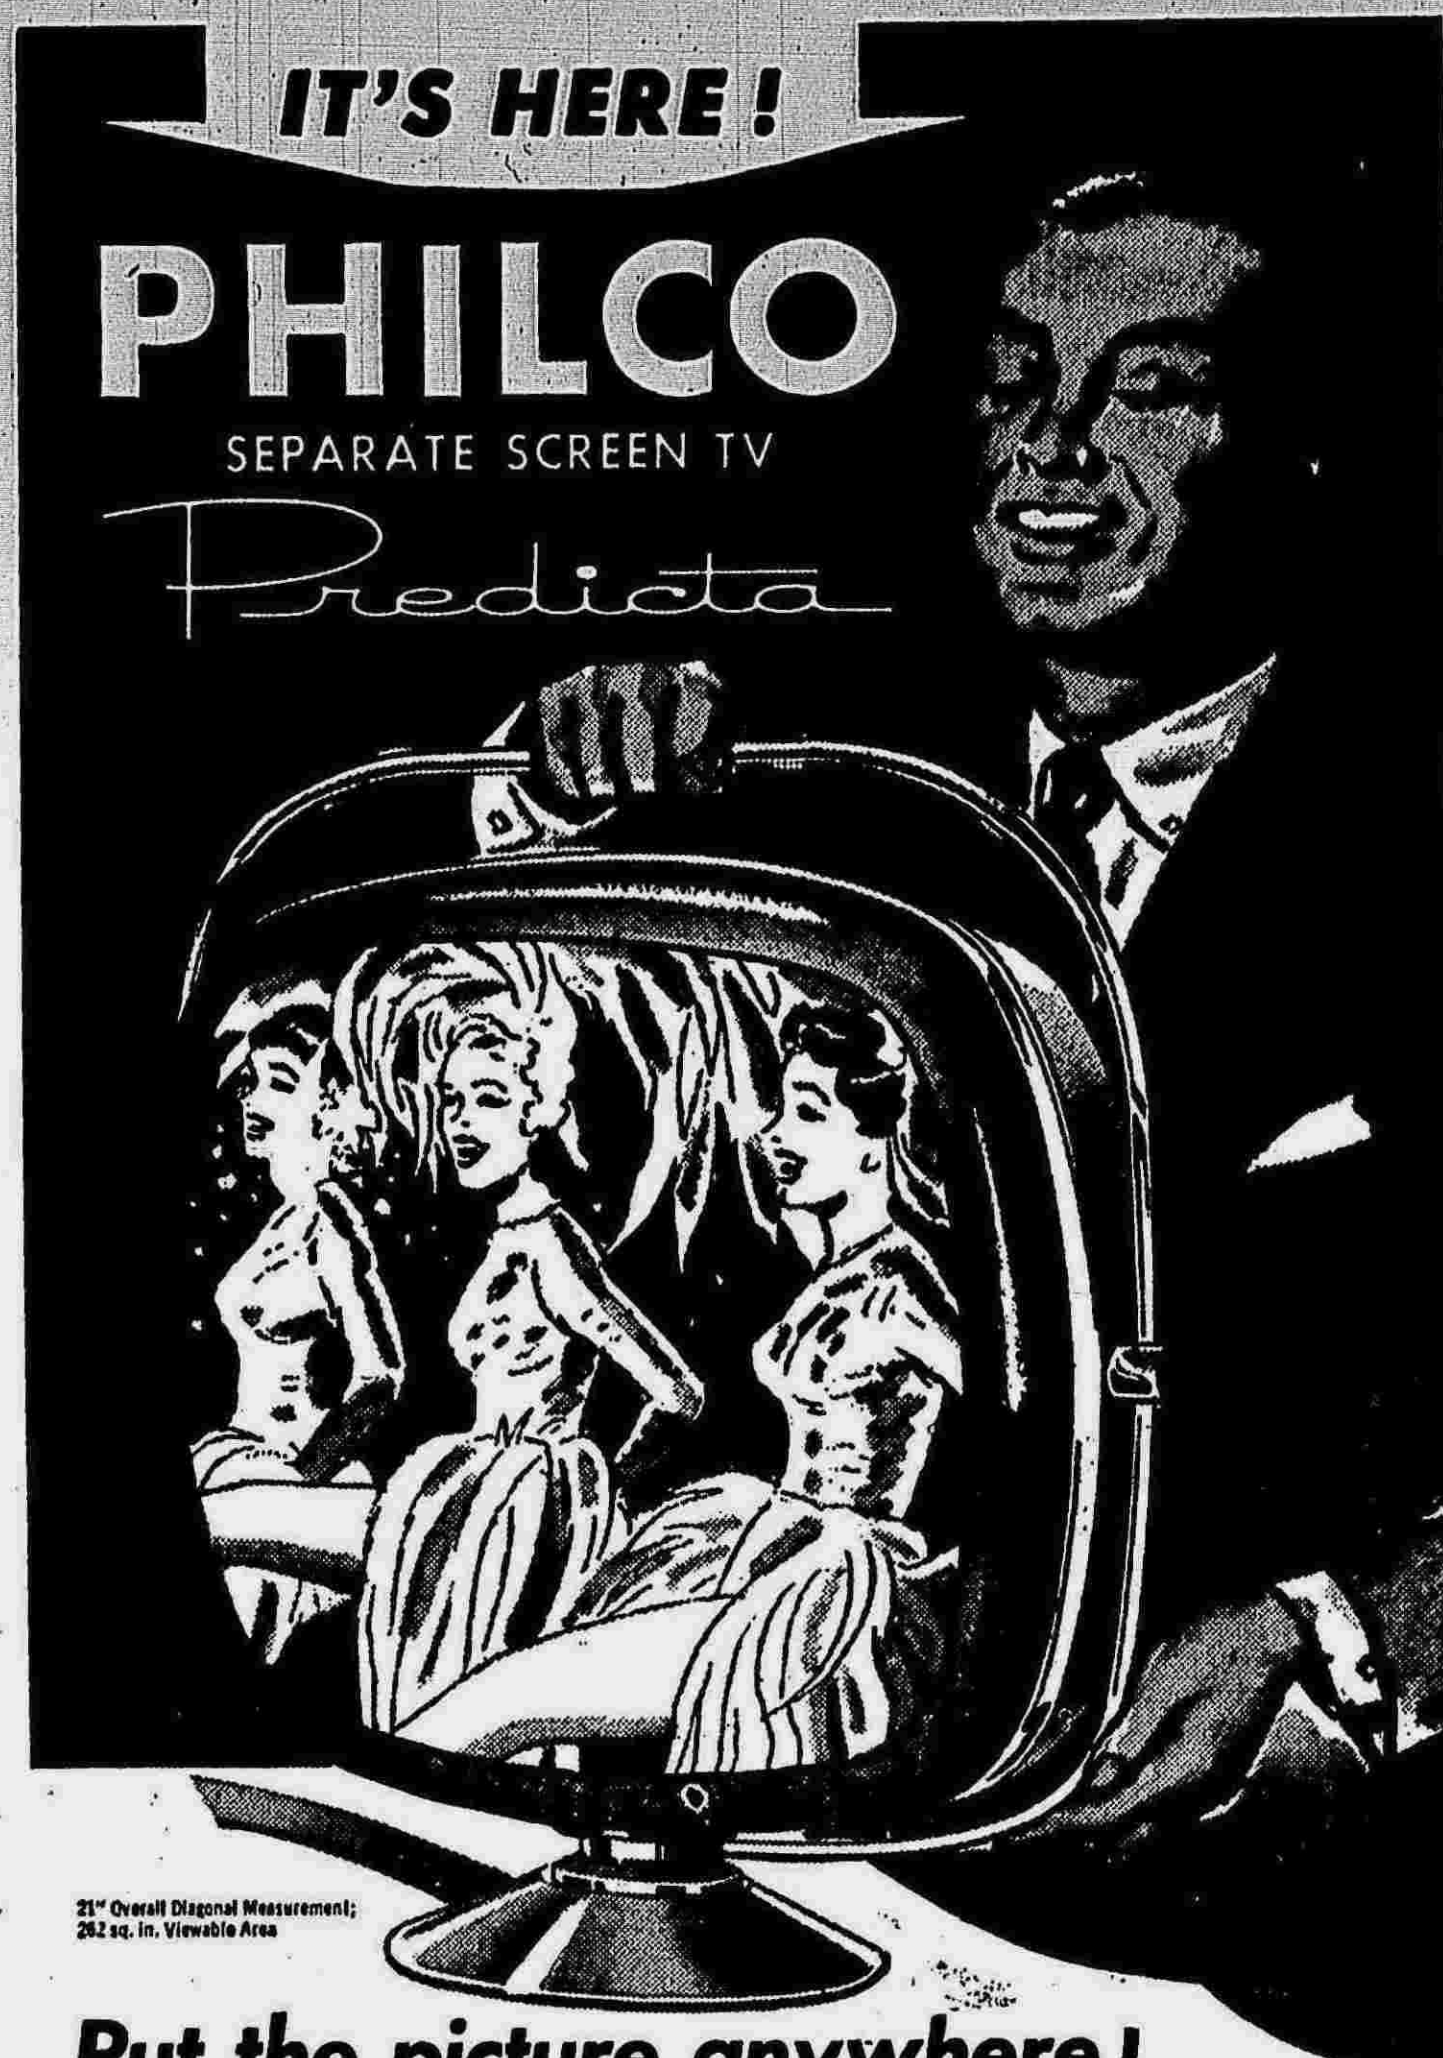

1. By Aug. 20, 1963—for a vet-

eran discharged or released from active service prior to Aug. 20, 1954; 2. By Jan. 31, 1964, or that date which is exactly nine years after his discharge or release from active duty, whichever is earliest, for a veteran released after Aug. 20, 1954.

THE REASON TIME is running out, says Ralph B. Johnson, Illinois administrator, is that the VA would not approve a program that could not be completed within the nine year period, and that they should enter training immediately in order to

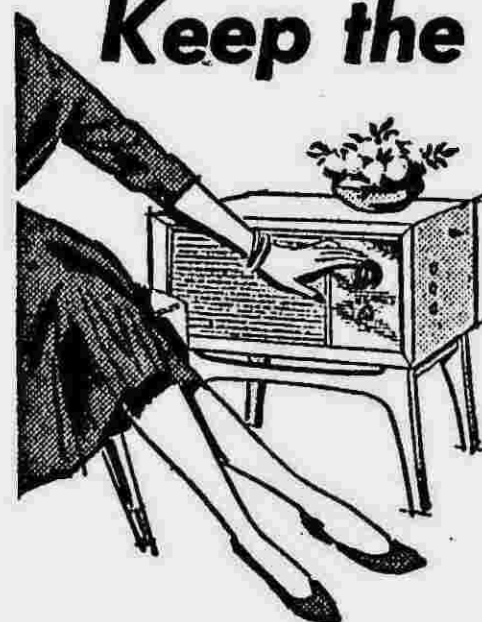

complete the program by the expiration date. Certain veterans who were hospitalized at the time of discharge and unable to begin training could be given a four year extension. Further information for veterans in the Antioch area can be obtained from the VA Service Officer, in Waukegan and Kenosha.

Business Women To Learn About Interior Decorating

Bette Meyers will give a demonstration on interior decorating at the Jan. 12 meeting of the Antioch Business Women's Club.

The meeting will be at 8 p. m. at the Scout House on Main St., advises Dorothy Thompson, secretary. Refreshments will be served.

COMMANDING THE VIEW of the countryside at Trevor was this brilliantly decorated Christmas scene. Constructed by Carl Stefan, Camp Lake Gardens Sub-division, the decoration caused much comment by residents in the area. Stefan has been adding to his house decoration every year and this year the nativity scene is new. Residents can expect probably a new star over the area next year, Mrs. Stefan says.

Salem Miss Is Champ Pie Eater

Proficiency at pie eating has won Arlene Schmidt, a freshman in homemaking at Salem Central High School, a spot in a contest in Milwaukee.

She will try her skills Saturday in a district cherry pie eating competition.

Five others at Salem Central High competed for the title of champion pie eater in the contest just before the Christmas vacation. Second place winner was Sharon Norfleet and third place went to Ruth Mudgett. Others were Marilyn Martell, Carol Mudgett and Diane Halbach.

Old Favorite 'Telephone Hour' Moves to TV

Folks who have missed the old favorite "Telephone Hour" on radio will now be able to see a new type of show on television.

The show will have a new format including music of all types, not just opera and classical as the old radio show featured.

Premiere performance will be Monday at 7:30 p.m. on Chicago Channel 5 says Richard Hawkinson, manager of the Antioch Bell Telephone Office.

Do you know what is happening?

There is one product in Antioch that is apparently going like hot cakes and we want you to know about it. That product, oddly enough, is your product — The Antioch News. Believe it or not, 2,350 copies of The News rolled off the press for the issue of December 18. That product sold out. This is the first time such a thing has happened.

WHY DOES IT SELL?

There are many reasons why people buy a newspaper but one thing is certain: It has something valuable to offer the reader. Perhaps we should cite some figures, interesting figures, about the first four issues of The Antioch News in December. We published over, 3,000 inches of news, most of it of immediate local interest. The forty-seven pictures we printed contained 149 local lakes people. And over 5,000 inches of advertising appeared in Antioch News columns.

WHAT IS IMPORTANT?

Of greatest importance, we feel, is that people like what they read—agreeable or not—about persons, places, problems, and events in their particular region. They know what is happening in their area and that is important, mighty important.

We are interested in improving your product — The Antioch News — so you get more of what you want. Tell us. Write us. And in the meantime have The "new" Antioch News mailed to your home. Then you won't have to pick it up. It comes to you right at home. Mail the coupon below to The Antioch News, P.O. Box 538, Antioch, Illinois:

What Is The Largest "Farm Group" In Illinois?

123,000 Farm Families That Regularly Save Trading Stamps Are The Biggest "Farm Group" In Illinois.

America's farm families are traditionally thrifty. The same pattern of thrift is found in Illinois. It is only natural, therefore, that the response of Illinois farm families to one of the oldest forms of thrift—the trading stamp—is so noticeable.

Today over 123,000 farm families save them. You might almost say that these savers constitute the largest single farm group in the state.

During 1957 alone, thousands of dollars worth of trading stamp merchandise went into farm households in the state, and every 2 seconds a farm family is

redeeming trading stamps.

There is still another side—direct income for farmers. During 1957 the stamp industry purchased from Illinois farmers \$2,766,000 worth of primary materials that go into the manufacture of merchandise for stamp redemption.

No one can contemplate these facts and fail to realize that both personally and economically the trading stamp industry is a meaningful and welcome force in the life of our state.

This message is published as public information by THE SPERRY AND HUTCHINSON COMPANY, originator 63 years ago of SAH Green Stamps.

Third Place at Stake In Friday Salem Game

Salem Central High School and Pewaukee will battle it out Friday night on the Salem court for third place in the Southeastern conference.

"The winner will have a solid hold on third place in the conference," said Falcon Coach Dorm Grams. "We're up mentally for the game and our defense is holding up better," he said.

In a previous battle at Pewaukee, Central came out on the short end of a 69-64 score.

Salem holds a 3-1 in the conferences and a 4-3 overall record.

Salem Drops.....

(continued from page 8)
session of the ball on numerous occasions.

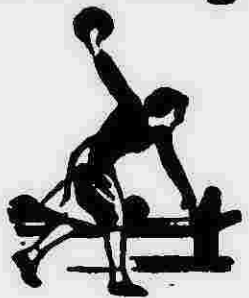

Ronnie Yates of the Falcons and Dan Floberg of Lake Geneva shared scoring honors with 15 points each.

NOTES: The officiating was excellent... Salem outshot the Badgers at the free throw line, 61 per cent to 54 per cent... In the second half, Central hit on 78 per cent of its gift tosses... Central shifted to an all court press with 3:30 left in the third quarter... Those who were familiar with Lake Geneva's play said the Badgers were below par... Ron Nelson of Lake Geneva played a fine game, both offensively and defensively...

Individual totals:
Salem Central: Davis 3-0 (6); Neu 1-0 (2); Krowczyk 2-4 (8); Yates 4-7 (15); Schultz 1-0 (2); Lentz 0-0 (0); Erickson 2-2 (6); Foulke 1-1 (3); Westman 0-0 (0); Straulin 0-2 (2); Ellis 0-0 (0); Wiedner 0-0 (0).

Lake Geneva: Floberg 7-1 (15); J. Arnold 4-4 (12); Nelson 4-2 (10); O'Neill 1-4 (6); McLean 4-2 (10); Klabonde 0-0 (0); P. Arnold 1-0 (2); Kahn 1-0 (2); Richards 1-1 (3); Marsh 0-0 (0); Pahl 0-0 (0).
